All cruises are flexible and nothing is set in stone. This means that we can design cruises that suit the needs and requests of the guests. though of course the Skipper and crew will advise on places to go, based on your interests. Much of this planning is done before you arrive, but it remains flexible to suit you.

The main cruising areas are around Zanzibar, North to Pemba Island or southwards to Kilwa, Songa and Mafia Archipelago.

So what we need from you is as much detail as to the kind of experience you are looking for, ie scuba diving, or fishing or a romantic island hopping cruise or perhaps your interest is in history and culture - based on this we will then make suggestions and propose an outline itinerary.

You can even combine a yacht charter with one of the many island resorts and lodges...the options are endless!
